

VIATEK AND WATCHGUARD: DELIVERING A SECURE FUTURE

Since its establishment in 1984, Viatek has delivered a portfolio of services to clients across Victoria and New South Wales. Working from 19 office locations, the company's 300 staff strive to understand each client's unique requirements and then design and deploy a solution that matches those needs.

THE POWER OF A PARTNERSHIP

To ensure the delivery of the best possible tools and technologies, Viatek has chosen to partner with industry leading specialists. By forging close working relationships, this ensures clients have access to a portfolio of products that are leaders in their category.

One of Viatek's most important partnerships is with IT security specialist, WatchGuard. For more than 20 years the company has pioneered cutting-edge security technology and delivered it as easy-to-deploy and easy to manage solutions. The company focuses on providing intelligent protection, simplified management, and actionable visibility.

Viatek's security engineers are fully certified in WatchGuard's suite of products and well experienced in their deployment and management. If required, they also have direct access to senior WatchGuard specialists who can provide additional guidance and assistance.

In recognition of Viatek's close working relationship and extensive product knowledge, WatchGuard has appointed the company as Australia's first Platinum Partner. This acknowledgment is further evidence of the deep working relationship that has developed between the two companies and the ability this provides to deliver world-class service to clients.

WHAT THIS MEANS FOR YOU

As a WatchGuard Platinum Partner, Viatek is uniquely placed to provide tailored, robust, and scalable security solutions to clients across a broad range of industry sectors. Specifically, the relation delivers significant benefits including:

- **Early access** to new technologies and products ensuring clients can enjoy the latest advances in cybersecurity.
- **Maximum value** from WatchGuard products thanks to Viatek's deep understanding of their features and capabilities.
- **Superior tech support** through access to senior WatchGuard engineers who can quickly overcome any issues and ensure effective ongoing security.
- **Two-way communication** that ensures feedback from clients can help to guide the development of future WatchGuard products.

This unique partnership between Viatek and WatchGuard can provide your organisation with the holistic, scalable, and dependable security solution it requires. Contact us today to learn more.

WE'D LOVE TO WORK WITH YOU
